

# Tracks N Trails OUTFITTING CO.

WHITETAIL • MULE DEER • MOOSE • BLACK BEAR • ELK • COUGAR • WOLF

## The Bear Facts!

When you book with Tracks N Trails, you can be sure the guides will be knowledgeable and friendly, the areas you hunt will have the game you desire and the outdoor experience will be all you expect it to be. Tracks N Trails is operated by people who care about the success of your hunt and the quality of your adventure. Join us in Alberta for your next big game hunt.

## Limits

Black Bears are very prolific in Alberta. As the result, both Spring and Fall hunts are available with a two bear limit.

## Color

A high percentage of the bears in our area are a color phase other than black. Past clients have averaged 150% success ratio, with 25% of those bears being an off color such as Blonde, Red, Cinnamon or Brown.

## Trophies

In addition to the color phase attraction, the bears can attain Pope and Young or Boone and Crockett size. In the past, bears harvested have averaged 5 - 7.5 feet with both spring and fall pelts making an attractive trophy.

## Hunt Style

Our hunting areas are remote with large tracts of unbroken wilderness. Hunting methods include spot and stalk and baiting. Spot and stalk is a spring (May) bear hunt where hunting is conducted through the day in a non-baiting area (Grizzlies are present). Bears will present opportunities on seismic cutlines, pipelines, logging clearings and oilfield roads which are the only access to these forest areas and are the first locations to "green up" in the spring.

Bait hunts are conducted in either spring (May) or fall (September). Each evening hunters will be placed by their guides at an active bait. All stands are situated to accommodate both Rifle or Archery hunters. All baits are laid out several weeks in advance of the hunters' arrival.

## Camp

Bear camps are located in the forest and fringe territory of West Central Alberta. Each camp includes excellent home cooked meals, comfortable lodging and all modern conveniences with hunting grounds right out your back door. Our area has produced trophy quality bears for previous clients and will continue to do so in the future.

- CLASS T OUTFITTER
- LICENSED
- BONDED
- INSURED

## General Information:

- Ground transportation is supplied from the designated airport to the hunting site.
- Hotel accommodations before and after the hunt are the hunters responsibility.
- Government license fees and tags are hunters responsibility. To save time and avoid delays in your hunt, tags will be pre-purchased prior to your arrival.
- Guides will provide expert trophy preparations and help arrange any required government export permits. Any export and shipping fees will be the hunters responsibility.
- To assist in return shipping of trophies: all capes, antlers and/or meat will be crated and packaged for your convenience at the hunters expense. Also arrangements can be made to have trophies delivered to a reputable local taxidermist at no cost.
- Pre-baited stand sites provided for bait hunting
